Dear Mr. Kanak:

I have been listening to WTAR since November 1993. I specifically listen to the Mike Rau show. Infact, I listen to the whole 5 hours every Saturday and Sunday because of the quality of the show.

Mike's show is extremely informative, educational and interesting. I believe that that is the combination that creates success. WTAR is fortunate to have such an excellent host as Mike and the production support of Pat Rawson.

It was last night's show that has initiated the writing of this letter. Mike had Robert Boston on the show as a guest speaker. I was impressed with the topic matter, Mike's skills as a host and the excellent organization of the entire program. I am sure that the effort involved in putting on that type of format must be exhausting. However, Mike and Pat did a superb job.

The listening public is fortunate to have such a great talk show to listen to during the night. Although, I would hate to lose Mike on the night show, I believe that the daytime listeners need to hear the Mike Rau Show.

In closing, I want you to know that I have started to tune in to some of your daytime shows. I have not been a fan of the AM stations before now, but listening to Mike's show has sparked an interest in me. Thus, WTAR has gained another faithful listener.

Best Regards,
